suffered Fearfully and Cured.

Mr. Jerry P. Thomas, President of the Gourd Club, Central Park Hotel, 59th street and 7th avenue, New York writes: "Last summer I suffered fearfully with neuralgia and could not get any rest, night or day. I tried St. Jacobs Oil and obtained the first night's rest in weeks and was cured."

I have been a sufferer from neuralgia for ten years; tried all kinds of remedies without relief, and had given up all hope. I tried a bottle of St. Jacobs Oil, and it has effected such wonderful relief, I rec-ommend it to all. CHAS. LAW, Jr. Suffered 5 Years and Cured.

Booneville, Mo.

For the last five years I suffered dreadfully from neuralgia and nervous pain in my head. It affected my face and eyes, so that at times I was unable to attend to any work. I procured a bottle of St. Jacobs Oil at once, and after the first application to the affected parts, I felt instant relief. I consider St. Jacobs Oil the best remedy for instantaneous relief of nervous and neuralgic pains, and will hereafter never be without it.

BISMARCK'S SPEECH AND POSSIBLE

Prince Bismarck's speech in the Reichs tag may be either an expression of the de France, a threat to her to cease military activity, or a mere political movement to strengthen the governmental party in the Empire. It is more than likely that the latter was the chief purpose. The nations than otherwise, financial speculations are spite all these "flurrys," sixteen years themselves. have elapsed without any such outcome. What has France to fight for? The New York Evening Post, which will not be credited with any bias in favor of railway managements, refers to the debate on the "long and short haul" question in England. It takes up the advocacy of a neasure by the London Economist, much ommerce bill, prohibiting a greater charge same direction. It is held in opposition, in England, that the English railways nust take goods destined for the Continent at any rate they can get above cost of hauling, or lose the traffic altogether, allowing it to pass into the hands of foreign competitors, to the detriment of English man factures. But this is met by the Econo mist with the charge that such a practice is requiring British consumers to pay an indirect tax to enable the producers to Belgian manufacturers. Now, says the Post, "while the operation has this appearance, would the consumer be helped by stopping the export trade, or that portion of it which depends upon the minimum freight charge and could not be carried on at all without it?"

Precisely the same question may well be sked of the advocates of the interstate commerce bill now before the Senate; how are the places occupying relations intermediate to the terminal points between which the long hauls are made at the minimum charge, to be benefited by the abolition of that rate or of the through traffic? As the Post says:

"If the law steps in and says you shall not carry goods from Manchester to Dover for less than you charge from Manchester to any intermediate point, the railway will have to sacrifice one or the other sort of forward in Sonoma valley The reported traffic. It will not sacrifice that portion from which it gets nine-tenths of its revenue. It will let go the one-tenth. The nine-tenths will be no better, but may be worse off than before, as being called on to make good the loss of the one-tenth."

So if the interstate commerce bill be omes a law, and forces the carriers to sire of Germany to provoke a conflict with choose between the two kinds of traffic, that paying the local or higher rate, and that paying the competitive or lower rate they will abandon the latter and the traffic on the local basis must maintain the carriers' business. The following was introduced by La Blane:

Whereas, Large sums of money are believed to be on deposit in the various savings and loain banks of this State, which said sums have remained unclaimed for a period longer than the statutory time provided when such moneys escheat to the State of California, and are payable into the State Treasury; and whereas, the Bank Commissioners of the State of California have failed in their official reports to furnish full informat on thereof; therefore, be it Resolved, That a committee of five be appointed by the Speaker to make a full investigation of the moneys on deposit in the various savings and loan banks of this State, which have remained unclaimed beyond the statutory period. That the committee have full power to send for persons and papers, and to employ such experts as may be necessary, and to report to this House any Act or Acts that may be necessary to enforce the payment of said sums into the State Treasury.

ppointed as such committee Messrs. Le Bland utler, Martin, Cooley and Spurgeon. W. A. Brown introduced a resolution that th W. A. Brown introduced a resolution that the Chairman of each committee of the House be empowered to appoint a clerk for his committee, the Committees on Judiciary, Irrigation and Ways and Means each to have two clerks, one to be named by the Chairman, the other to be selected by the members of the committee.

Matthews of San Benito said he could see no use for those clerks at this time, and he did not believe one-third of the committees would need the services of a clerk at any time during the session. He regarded such appointments as nothing less than a wasting of public moneys. He warned the members against placing themselves upon record by voting for such a flagrant throwing away of the moneys of the State.

Brierly said the importunities of the hangerson had become unbearable, and the members were forced to provide for the place-hunters or be "bored to death."

I anger was of the opinion that six or eight rks were all that was Lecessary to do all the rk of the different committees. It was the blimity of cheek to ask clerks for committees ien it was a well-known fact that the commits would not have any bill referred to them aring the session. He referred to the fact that ready there were as many, or more, attaches an there were members, and this piling up of additional daily expense upon the State of 40 per day would be hard to explain to the bnest taxpayer. It was not the compliance to be importunities of an impecunious man or oman, but the duty the legislator owes to the copie of the State, whom he is supposed to spresent, that should be first considered. It cas not business-like, it was not honest, neither as it just, and the individual who would go toon record as an aider or abetror of such a neasure will deserve—as he will certainly reseive—the just condemnation of the people of this commonwealth.

Matthews of San Benito, Heath and Lawrence commenced to filibuster and kick up a rumpus because these persons were chosen by the Republican majority. Their opposition caused the Republicans to move a call of the House, which was had, causing a long, foolish and unnecessary delay.

Brooks of Ventura, a strong representative Democrat, could not submit to the foolish course taken by the three members above noted, and in a short speech sat down upon them so severely that there was nothing left of them. His remarks were cool, forcible and to the point. He said the report of the committee recommending those three persons was unanimous. They were the choice of the Democrats upon that committee, and he was heartily ashamed to see the opposition to the adoption of the report by the Democrats upon the floor. At the close of his remarks Mr. Brooks was warmly applauded in all portions of the house, a well-deserved compliment, and one not heretofore accorded a member of this Legislature.

LEGISLATIVE NOTES.

It is said that the man who drew twelve cha-nois skins from the Secretary of State is having bem made up into a toga. Who it it says that Esop's fable about the ass and the lion's skin is A kepublican Assemblyman arose to debate a motion to adjourn on the first day of the session and was sat down upon. Yesterday, when the previous question was put, he arose and said: "Mr. Speaker, I would like to have it read." Mrs. A. J. Kennedy has been appointed clerk Since the lobbyists are excluded from the floor of the Assembly the pages find their labors increased very materially. Yesterday a lady dressed in black sent in a message to an the research of the research ssemblyman, requesting his vote on the reso-tion appointing committee clerks. The note is

in possession of a newspaper reporter, and will be returned to the owner on proof of property. It is rare, racy and very suggestive. It is rare, racy and very suggestive.

The Senatorial question is still in an unsettled condition, so far as runors go. Last night it was stated, upon "dead sure information," that Boss Buckley had sold six of his Democratic lambs to vote with the Republicans and elect a Republican United States Senator. A peculiar feature of all the news on the Senatorial issue is, that it is so reasonable and reliable in appearance, and no one is safe. The most innocent bystander is liable at any moment to be elected to the upper house of Congress, whether he wants it or not. Somebody is bound to get the plum, however, even if there is not enough of it to go around.

The colored Democratic statesman from the Bay who aspired to the portership of the Judiciary Committe is disconsolate. He said yesterday: "Blaine was defeated by the foolish utterances of Burchard; I, sir, was knocked out completely by the speech made in my behalf by Mr. Brooks."

AND ALL MALARIAL DISEASES. AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPKEDY and PERMANENT cure of Ague and Fever, or Chills and Tever, whether of short or long standing. He refers to the entire Western and Southern country to bear nim testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

The San Francisco Chronicle of yesterday gives the following explanation of the mys-tery connected with the disappearance of overcome by the busy whirl of the city and getting lost in the streets, Tillie made straight for Pete Dorcy's temple of Bacchus; on Stockton street, and there delighted the habitues by showing them how a jig was danced in Woodland. With the customary good nature of girls who are brought up in sight of green fields, and who enjoy plenty of fresh air, Tillie responded to several encores and danced several more jigs. She favored Dorcy's with several social calls, and in a fit of confidence, induced probably by the heat of the room, told several of her new friends that she was going to be married but was 'on a jam now. As soon as I ried, but was 'on a jam now. As soon as I get over it,' she said, 'I am going to marry a young man from Woodland.' She was shown the items in the newspapers about her 'mysterious disappearance,' and laughed heartily over them. Tillie also visited Patsy Hogan's symposium, on Eddy street, and dropped in at the Cliff House during her brief tour. From those who met her while on the 'jam,' it was learned that this poor innocent from Woodland is an excellent jig dancer, is quite good looking and not bad company. The Southern Pacific Company is having the steps of all its passenger coaches altered as rapidly as possible, so as to make it easier for passengers, and especially ladies, to get upon the car platforms. To that end, there will hereafter be four steps to be ided and descended, instead of three and the lower one will be so near the ground that even ladies in tight "pull-backs" will be able to reach it without assistance. Sick people will find the change a great convenience, and the "last man" Il be in less danger of failure to secure good footing when he makes his jump to on board. Railroad men say while this change will be welcomed by the traveling public, it has its disadvantages the principal one being that a low step i more apt to strike an obstruction by th step is almost sure to be knocked off, and ments, to signify its presence by exhibiting, any one standing upon it hurt. Passengers in a prominent place, a distinguishing flag, will do well, therefore, to bear in mind the warning on the car doors, "keep off the platform," and the steps especially, and remain in the car until it stops.

Diphtheria prevails quite extensively throughout the State. Dr. J. M. Vance, four or five feet and give it a thorough writing from America, Santa Clara county, states that the disease appeared there early in December, apparently in a mild form, as no precautionary measures were adopted to limit its spread, until a death occurred, when strict quarantine was instituted, the houses disinfected, and isolation enjoined;

the result was that the disease disappeared fore the end of the month. In Maxwell, Dr. Robe writes, that there has been quite an epidemic of sore throat, with some cases of diphtheria and membraneous croup, with corresponding fatality. The disease also lingers about Truckee; it has appeared in Sacramento, and in the form of diphtheritic croup was very fatal. Fall River, Hanford, Oakland, San Jose, Santa Rosa, Stockton, Los Angeles, Jolon, Mariposa, Vallejo, Lodi, Anderson, Eureka City and San Francisco report its presence. Every city or town having a local Board of Health (and every town should have one), ought to issue an ordinance compelling householders or tenants having diphtheria roadside, and, in case of its striking, the or scarlet fever in their houses or tene-

Society in Full Swing,

Flowers for corsages and party dress garnitures have been reduced heavily. In some cases present prices are less than half the former rates. The Flowers are chiefly imported goods of French manufacture, and are of desirable styles. We prefer to sell them now at a sacrifice when they are in season and style, in preference to holding them over until next year. Hence, the telling reductions.

In the Millinery Department we have a handsome Silk Crepe de Chines, in leading colors for draping evening dresses, etc.

Also, Fancy Crepes. Fancy Feathers, Pom-pons, Plumes, etc., in light

shades abound. The fashionable things in Gloves, Fans and other items of ladies' evening dress.

Transportation and Markets.

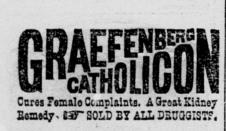

Cheap and rapid transportation is of the ut most importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantageously situated in this respect. It is between two railroads that both connect with steamboats that run from the Sacramento and San Joaquin points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance on this Coast. The markets for all kinds of products are good. The Canneries, Wineries and Fruit Dealers take all the Fruit raised, at highly remunerative prices. There is an unlimited demand for all the Wine, Raisins, Figs, Prunes Green, Dried and Canned Fruits that can be grown. Dairy Products, Fowls, Eggs and Vegetables find a ready sale. Every acre of this land when in bearing Fruit Trees or Vines will net \$100 per acre. For further particulars apply to

MORE ABOUT EASTERN WINTER AND REPULSIVE COLD.

The "Record-Union's" Bulletin of California Weather and Citrus Fair Papers-Notes-Etc.

Rapid Progress Being Made on the Line CHICAGO, January 5, 1887. EDS. RECORD-UNION: To keep you Rails have been laid some distance this readers posted as to the progress of the exside of Starveout, and very little grading is she of state of the distance to Shasta river, which will be performed by those connected with the construction nibit of citrus fruits in this city, I must write you frequently. I devoted a portion those of my last letter to the delectable weather trains, following along as the track is put down. The grading from Shasta river to existing here, and will only say now that Klamath river is being hurried along as rapidly as possible, as timber, cement and other materials are required before any progress can be made in building the since my last writing we have experienced mother phase of its peculiarly changeable character. The intense cold weather here kept most people in doors since Sunday. I find, by comparison of the temperature here on Monday morning last with that of Sacramento, there was a difference of 83°hat is, it was 83° colder here than in your city. From 14° to 24° below zero is comnon here. Icicles form on men's beards n the streets, and their respirations go up

n clouds like the putts of steam from a locomotive. Those ladies who on the streets wear heavy hard the incentive for completing the coast ladies. must go on the streets wear heavy veils to keep out the icy blast. Water pipes freeze and burst and then we night brought a driving snow-storm from that direction, which by this morning had turned around for a variety and came from the northwest, and the wind moans dismally around the chimneys, and signs and shutters swing to and fro, creaking coldly in the freezing blast, and during all this villainous weather, one of the most strikingly attractive, and wonderful features in Chicago is the get a change. A raw southwest wind last pacific will be able to deliver freight and passengers in Portland at the same rates passengers in Portland at the same rates Chicago is the ECORD-UNION'S CALIFORNIA WEATHER BUL-

LETIN, Which occupies a conspicuous position in the Citrus fair. The dispatches received each day from the Record Union and displayed in this manner, showing the highest and lowest temperature of the day at Sacamento, Red Bluff, Oroville and Newastle, is one of the most eloquent pleas or Central and Northern California, and successful pieces of work, in connection with the luscious display, that could possibly be devised. These have been bulletined in the afternoons or evenngs and with the thermometer all the way om zero to 20° below, on the outside he exhibition hall, and the attractive show f beautiful oranges, lemons, limes, etc. within, were accompanied with such bulletins as this displayed upon the RECORD-UNION bulletin board—giving the

same day's temperature, thus: Sacramento-Lowest 35°, highest 56°. Red Bluff-Lowest 43°, highest 53°. Oroville-Lowest 37°, highest 61°. Newcastle-Lowest 40°, highest 65°.

These dispatches have had in themselve powerfully convincing influence. In addition to this, the admirable sem opical illustrations in the great Citru Fair edition of the RECORD-UNION, which are here for the visitors, give special poin o these records of your California sum-ner in our ice-bound frozen mid-winter, nd the exhaustive descriptions of fruits, raried productions, climate, soils, etc., with which the twelve pages of the Citrus Fair road, from the East.-Yreka Journal, Jan-RECORD-UNION edition are so effectively illed, attract constant attention an anxious demand.

RIVERSIDE, January 12th. - The fruit-growers and business men of Riverside are very indignant over the report given out by the house of W. T. Coleman & Co., to the Thursday, loaded with tools, tents, Chinamen and other apparatus required for the railroad work. The teamsters prefer the morning last. The report is false, and a libel on the settlement. In November last there was a frost here that affected a small percentage of the fruit in the lower por-tions of the settlement, but on Monday last the extreme cold was of so short duration frost. During the past few weeks many of the crops have been sold on the trees, at high figures, being purchased by men who understood their business, and these prices would not have been paid for damaged fruit.

A Chance for Health

Is afforded those fast sinking into a condition of hopeless debility. The means are at hand. In the form of a genial medicinal cordial, Hostetter's Stomach Bitters embodies the combined qualities of a blood fertilizer and depurent, a tonic and an alter-ative. While it promotes digestion and assimilation, and stimulates appetite, has the further effect of purifying the life current and strengthening the nervous system. As the blood grows richer and purer by its use, they who resort to this sterling medicinal agent acquire not only vigor, but bodily substance. A healthful change in the secretions is effected by it, and that sure and rapid physical decay, which a chronic obstruction of the functions of the servers wording is averated. The prime system produce, is arrested. The prime causes of disease being removed, health is speedily renovated and vigor restored.
